Session #5
Arrays, Strings, and let's put it all together

ICPC SCU

Session Structure

- What is a data structure?

- Why do I even need arrays?

- Storing arrays in memory

- Declaring arrays

- Arrays indexing

- Multi-dimensional arrays

- Iterating over arrays

- Runtime errors: out-of-bound

- Char arrays

- Functions with arrays?

- Primitive vs User-defined data types

- Strings and methods
